New Business

Make live charts

Motion: Moved by Colby that we get the Viz java to do incremental checks on the doc it is pointed to. This will make live charts possible for Expo demo, and would look good.

Motion passed

Document data helpers

Motion: Moved by Mike that Colby create more Document helpers. Data in viz should have a last_id, and will ask for any new data after that. Colby will start Feeds, and use them to make any extra info happen.

Motion passed
