Description (last modified by cblair) (diff)

### Call to order

Customer Specification Meeting, January 24th 2012 14:30 in Office of Alex Fremier, UI Department of Fish and Wildlife Resources.

### Approval of Minutes

Members of the Portal/Hatch? Development Team.

### Unfinished Business

None

### New Business

#### Production web server (to go live before demo)

*Motion:* Moved by Alex and Colby that the original demo date of January 31st be moved to a later time TBD at next meeting.

#### Motion passed

#### Viz specs / controllers

*Motion:* Moved by Colby that we need to identify some demo PTAGIS data. We also need to identify some examples of what columns in such demo data should be graphed. We decided that we would

start graphing the number of fish per day per site, and species per date per site. This will be handled by either the Metadata, Data, Filter, or Query controllers. But will allow Mike and Colby to move ahead with some visualization coding next week.

### Motion Passed

## Announcements

The next meeting will be with Mike and Colby in the JEB Think Tank, Thursday January 26th, 2012 13:30. We will review the Viz specs and prepare to code for next week's Scrum.

## Adjournment

The meeting was adjourned early because of a meeting scheduling conflict at 15:10.
